

Introducing our brand new Western Cancer Centre!

On Monday 20th September 2021, the highly anticipated \$35 million Western Cancer Centre Dubbo opened its doors to patients, bringing life-saving services much closer to home for the people in regional and remote areas of Western NSW.

The Cancer Centre is being opened in stages with staff moving in to the clinic rooms and reception area last week. The chemotherapy treatment area and Wellness Centre are set to open in October, followed by the PET/CT scanner and radiation therapy in the coming months—these last two services are a first for Dubbo!

Congratulations to the redevelopment team, building contractor - Lipman, hospital staff and community representatives for helping turn the community's vision into a reality. The new facility will be life-changing for so many families in Western NSW.

The NSW Government delivered the \$35 million Western Cancer Centre Dubbo, which includes a \$25 million contribution from the Federal Government.
