The NSW Government has committed $150 million to deliver Stages 3 and 4 of the Dubbo Hospital Redevelopment which includes a new Inpatient Unit, Emergency Department, Imaging Unit, Critical Care floor, Renal Unit (originally part of Stages 1 and 2 works) and Ambulatory Care Unit as well as new Ambulance bay, main entry and drop off zone.

Ms Berejiklian and Mr Grant also toured the new clinical services building that was officially opened in January 2016.

Project In Pictures

Ms Berejiklian and Mr Grant met a baby in the new special care nursery while touring the new clinical services building.
The NSW Government has committed $150 million to deliver Stages 3 and 4 of the Dubbo Hospital Redevelopment which includes a new Inpatient Unit, Emergency Department, Imaging Unit, Critical Care floor, Renal Unit (originally part of Stages 1 and 2 works) and Ambulatory Care Unit as well as new Ambulance bay, main entry and drop off zone.

Richard Hawksworth, Senior Respiratory Scientist at Dubbo Hospital, has been participating in the detailed design user groups to finalise the location of furniture and fittings for the new respiratory unit within Ambulatory Care.

Debbie Bickerton, Dubbo Hospital General Manager (left) and Kerrie O’Neill, Change Manager for the redevelopment look through hundreds of “Name the crane” entries to help select a winner.

A concrete slab has been poured for the new Playmates Cottage site which is close to the hospital. The child care facility will be relocated as part of the master plan for Dubbo Hospital’s major upgrade and expansion.

A construction crane has been busy moving the assembled steel frames onsite. In appreciation of all the crane’s hard work, primary school children in and around Dubbo have been busy thinking up names for the crane. A winner will be announced shortly.
