

Members of the Dubbo Hospital executive team recently had a tour of the new Surgical In-patient Unit which is nearing completion. Work is continuing on the link corridor to the In-patient Unit and the extension of the stairwell and lift lobby. Patients and staff are scheduled to move in to the new unit in the first half of 2018.

Meetings and conferences are now under-way in the refurbished Ian Locke Building.

The NSW Government has committed \$150 million to deliver Stages 3 and 4 of the Dubbo Hospital Redevelopment which includes a new In-patient Unit, Emergency Department, Imaging Unit, Critical Care floor, Renal Unit (originally part of Stages 1 and 2 works), Ambulatory Care Unit and upgrades to oncology services (currently being reviewed as part of the services plan for the Integrated Cancer Centre Dubbo Project) and Women and Children's Community Health. There will also be a new Ambulance bay, main entry and drop off zone and additional car parking.

The new and expanded In-patient Unit features large, bright corridors and allows much more natural light into the bedrooms and public spaces to improve the patient and staff experience.

Hospital General Manager, Debbie Bickerton points out the fabulous view of Dubbo from the patient lounge area in the new In-patient Unit.
